Portfolio of Solutions and Approach
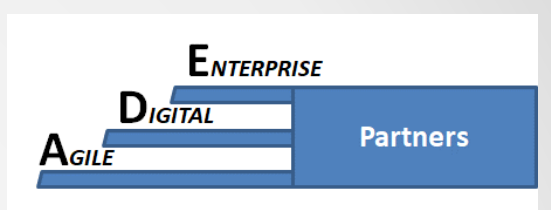

ADE Partners, LLC
Portfolio of Solutions

| Solution	Brief Description
Business Transformation Ideation	This solution helps clients to explore the opportunities available to the organization to improve business performance. It also comprises the definition of the conceptual elements of the target state organization (purpose, vision, values, strategy) and the guiding principles of the transformation journey.
Business Transformation Design	This solution helps clients to define – at a more granular level – the target state organization and the understanding of the gaps against its current state. It also includes the identification, prioritization and selection of the transformation initiatives, as well the supporting implementation roadmap.
Business Transformation Execution	This solution helps clients to implement the agreed transformation portfolio / roadmap, as well as the deployment of the supporting governance process (including value realization tracking). It also includes program management support and coaching.
Business Transformation Capability Building	This solution helps organization to equip their people with capabilities in the areas of opportunity identification, Lean Kaizen events facilitation, Agile sprint facilitation, project management and change management.

ADE Partners, LLC

Approach

Approach	Brief Description
Ideation Workshops	Focused interviews and target state workshops: • Megatrends • Mission, vision, values • Conceptual strategy, business model, operating model and enterprise architecture • Culture, skills and leadership capabilities
Discovery Phase	• Evidence-based and data-driven analysis of current state across 15 dimensions • Gap identification against the desired target state • Gap and root cause analyses
Detailed Target State	• Opportunity identification and value impact assessment of the opportunities • Opportunity selection and business case • Development of the transition roadmap and transformation portfolio / backlog
Implementation	• Governance model design • Change Agent training • Opportunity detailed definition and implementation • Program management support • Change management and coaching
